- IELTS (Academic): **6.5** Score \_ 2020

- Accessibility: How to Design for All
- Human-Computer Interaction - HCI

- UX Evaluation/ User Reaserch
- UX Writing

## Experiences

**Sr. Product Designer\_Design Lead** • Oct 2021\_ Present

### Ethica Data

Company Linkedin page: <https://www.linkedin.com/company/ethica-data/>

Ethica is a research platform that brings the power of smartphones, wearables, and data science into human-subject research. Researchers from many institutes such as MacGill University, University of Amsterdam,... work with EthicaData.

- As a designer lead, I develop the workflow for the team and prepare guide documents that designers can use to follow the workflow.
- I revise the documentation system to make it more relevant to the design and product teams rather than just technical documents.
- After reviewing the entire system and reading support emails, I created a document and prioritized issues to be addressed.
- The nature of this service is complicated. In addition, most of the features were designed by developers who considered complex concepts such as using operands to construct a study so users feel as if they are programming while they are designing a study in the system. So I decided to redesign the service based on users' words that I have read in the support emails. A redesign includes research, sketching, presenting ideas to the other teams in a meeting, revising the idea, and finally beginning the detailed design.

**Sr. Product Designer** • Oct 2020\_ Sep 2021 • 1 yr

### Nizek

Company Linkedin page: [www.linkedin.com/company/nizek/](http://www.linkedin.com/company/nizek/)

Tell: +98 9225010116

Nizek is a Web and Mobile development Company Based in Kuwait. I hired as a product designer.

- By Building an integrated user flow for the e-commerce projects I assisted to Amplify product managers' efficiency
- leading visual, interactions, information architecture, component library, design system for each product.
- By developing prototypes, and conducting rapid experimentation, we achieved 90 percent customer satisfaction.
- Through researching, sketching, prototyping, and user-testing experiences for most of the projects, I was useful to guide the client's product vision.

**Sr. Product Designer** • Jul 2018\_ Oct 2020 • 2 yrs 8 mos

### Freelance

Resign from where I worked with lovely colleagues and deciding to be a freelancer was a challengeable issue. During this period I have done more than 15 international projects.

- Analyzing data, using affinity diagrams, designed high-fi mockups, Persona. etc boosted in customer satisfaction ratings.
- Leading visual design, research, and evaluation of projects.
- Team up with some junior designers to teach them during designing a real project.
- Won the **best freelancer award** in the 2nd Iran's Freelancers' Festival in the User Interface Design field (the festival link: <https://freelancerz.ir/98/>)

**Sr. UI/UX Designer** • Apr 2016\_ Jul 2018 • 2 yrs and 4 mos

### Mabna ICT Co.

Company Linkedin page: [www.linkedin.com/company/mabna/about/](http://www.linkedin.com/company/mabna/about/)

Tell: +98 21 22938328
